The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage, visit www.yalehealth.yale.edu or call 1-203-432-0246. For general definitions of common terms, such as allowed amount, balance billing, coinsurance, copayment, deductible, provider, or other underlined terms see the Glossary. ### Important Questions | Answers | Why This Matters:
--- | --- | ---
What is the overall deductible? | $0 | See the chart starting on page 2 for your costs for services this plan covers.
Are there services covered before you meet your deductible? | Yes. | This plan covers some items and services even if you haven’t yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits. COVID-19 testing is covered at no charge both in-network and out-of-network.
Are there other deductibles for specific services? | Yes, $100 individual/$300 family for speech therapy. There are no other specific deductibles. | You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services.
What is the out-of-pocket limit for this plan? | $6,350/individual; $12,700/family. | The out-of-pocket limit is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.
What is not included in the out-of-pocket limit? | Premiums, balance-billed charges, and health care this plan doesn’t cover. | Even though you pay these expenses, they don’t count toward the out-of-pocket limit.
Will you pay less if you use a network provider? | Yes. Call 1-203-432-0246 for a list of network providers. | This plan uses a provider network. You will pay less if you use a provider in the plan’s network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider’s charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist? | Yes. | This plan will pay some or all of the costs to see a specialist for covered services but only if you have the plan’s permission before you see the specialist.
