Request for Applications
CANCER SYSTEMS BIOLOGY at YALE (CaSB@Yale)
Pilot Grants
$50,000 for the year 2018-19, direct costs

Cancer Systems Biology at Yale (CaSB@Yale)
is an NCI sponsored Cancer Systems Biology Center
focused on the analysis of invasive cell spread in aggressive cancers.

CaSB@Yale is pleased to announce the competition for a Pilot Grant for the year of 2018-2019.

We are soliciting applications from Yale researchers who will pursue either independent projects or collaborative work with one or more CaSB@Yale labs.

The research should focus on any of the Cancer Systems Biology areas, including but not limited to:
mechanistic analysis of tumor growth and spread, research into signaling and regulatory pathways and networks underlying progression to aggressive malignancy stages, novel methods and approaches to analyze and model these networks.

The awards will be at $50,000 direct cost, out of which up to $10,000 can be used for faculty support with the possibility of renewal during the next competition stage.

Applications should be up to **3 pages (including figure and references)** and are due **Tuesday, May 2 by 6:00 pm in PDF format emailed to** Meredith.Morrow@Yale.edu

***Announcement will be made on May 15.**

Please share!
