

## Create Job Requisition: Temporary/Casual (STARS)

**Objective:** This guide is to be used for completing the following tasks for hiring Temporary/Casual Workers:

- [Create Workday Job Requisition](#)
- [View Workday Job Requisition](#)
- [View Workday Job Requisition Number](#)

**Process Overview:** Requisitions are initiated in Workday and routed for budgetary approval in Workday. Once approved, the requisition feeds into STARS where you will be required to enter supplemental posting information.

Refer to the training guide **Finalize STARS Job Posting: Temporary/Casual** after submitting your requisition.

All bargaining unit Administrative and Technical temporary requisitions must route through IEP, YTSS, and New Haven Works for sourcing. For this reason requisitions for these temporary positions must be initiated using an "Employee" worker type requisition. For Managerial, Professional and excluded Admin and Technical positions you can submit either an employee requisition (if paid by Yale) or a contingent worker requisition (if vendor paid).

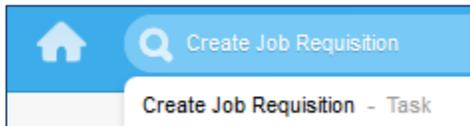

Refer to the *Create Job Requisition for Service and Maintenance L35* when hiring L35 casuals.

**Note:** If the position will reside outside of Connecticut, check [Out of State Work Arrangements](#) to determine if the outside of state location is already approved. If the state is not listed or if the position resides anywhere outside of USA, prior approval of location is required before submitting a job requisition.

### Create Workday Job Requisition

From the Workday Landing Page:

1. Click in the Search bar, type **Create Job Requisition**, and hit enter.

2. If appropriate, click **Copy Details from Existing Job Requisition**

**Note:** You will be able to view and select any requisition that was created in your associated Supervisory Orgs.

3. Confirm/Select **Supervisory Organization**.

**Note:** If you wish to create a requisition for a **Supervisory Organization** that does not exist, contact the Employee Service Center for assistance in creating a new **Supervisory Organization**.

4. Select either **Create New Position** or **For Existing Position**.

**Note:** An existing position is one that already exists in your Supervisory Organization.

5. For **Worker Type**, select **Employee**.
6. Click **OK** to proceed to the **Recruiting Information** page.
