1. **UPDATES TO EFFORT REPORTING POLICY, PROCEDURE, AND FORM INSTRUCTIONS**

Policy 1315 Effort Reporting: Certifying Effort on Sponsored Projects was updated on 10/27/22. This update includes minor changes to language.

Procedure 1315 PR.04 Effort Reporting was updated on 10/27/22. This update includes changes to the escalation process which was communicated in the October 13, 2022 OSP Brown Bag and the October 20, 2022 OSP News & Updates. Small changes were also made to language and FAQs, including updated links.

Form Instructions 1315 FR.01 Effort Report – Manual Form Instructions was also updated on 10/27/22. These instructions now include acceptable signature types when a manual Effort Report is completed.

Should you have any questions on these updates, please contact effort.reports@yale.edu.

2. **SALEFORCE PILOT UNDERWAY FOR GCAT3 AND GCAT5**

OSP is working toward streamlining its intake process for work requests for actionable items arriving in our gcat mailboxes. Effective November 7th, we will begin to transition work that comes into
**gcat3@yale.edu** and **gcat5@yale.edu** into a new Salesforce account. This transition will not change your process for sending work requests to OSP. You will continue to use your assigned **gcat3@yale.edu** or **gcat5@yale.edu** email box when sending actionable work requests to OSP. The only change for those sending actionable items to the mailboxes is that you will receive an auto-generated email confirmation that assigns a case number to your work request. Please use your case number when referencing any previously submitted inquiries.

### 3 UPDATE: NATIONAL SCIENCE FOUNDATION (NSF)

NSF is pleased to announce that supplemental funding requests including Career-Life Balance requests can now be prepared in Research.gov. Supplemental funding requests can be submitted in Research.gov **regardless of the system used (Research.gov, FastLane, or Grants.gov) for proposal submission**. FastLane supplemental funding request functionality will remain available in parallel for the preparation and submission of new requests until January 27, 2023.

In addition, the last two proposal types for the Small Business Innovation Research Program (SBIR) and the Small Business Technology Transfer Program (STTR) will be enabled in Research.gov for the fiscal year (FY) 2023 competitions. With all proposal and submission types soon fully supported in Research.gov, the system will be ready for the transition from FastLane for the preparation and submission of all new proposals in late January 2023, when the *Proposal and Award Policies and Procedures Guide* (PAPPG) (NSF 23-1) is effective. The last day to submit new proposals in FastLane is January 27, 2023.

Please see the table of important FastLane transition deadlines below. Additional information will be forthcoming on the transition of other FastLane functionality and a FastLane Decommissioning webpage is being developed.
