RE: **Corrections for NIH RPPRs submitted on or after January 25, 2022**

NIH has confirmed that Other Support submitted in the RPPR needs to be electronically signed by the individual PI/Key Personnel. The same process to obtain the electronic signature will be the same for JIT requests and RPPRs.

As a part of your Other Support submission, the NIH is requiring supporting documentation, which includes copies of contracts/agreements specific to senior/key-personnel foreign appointments and/or employment with a foreign institution for all foreign activities and resources that are reported in Other Support. If the contracts/agreements are not in English, recipients must provide translated copies. Your Other Support submission will not be submitted until these agreements are reviewed internally.

Additional information can be found on the [OSP Other Support](#) webpage
