External Revenue

471103	External Catering Sales	To be able to distinguish external catering income from regular cafeteria income
471501	Sale of Materials	Income from sales of materials Including: post cards, souvenirs, brochures, books, etc.,
472101	Service Charges	Income received for providing transcripts of student records, moving student furniture, providing computer services to outside organizations
477001	Other Income	ISP revenue generated from external customers
477050	Other Income – ISI Premium External	To record and thereby track premiums above the federally calculated rates charged by ISPs to their external customers, in order to be compliant with federal regulations.
477051	Other Income – ISI Discount External	To record and thereby track discounts below the federally calculated rates charged by ISPs to their external customers. This will help us ensure that we are compliant with federal regulations relating to discounts.

Only registered ISPs may use the above Revenue Expenditure Types, with the exception of 510009, which should be used by non-registered Recharge Centers. Non-registered ISPs which move expenses to other organizations (i.e., Cost Allocation Units) should credit an expense (an expenditure type beginning with 7, 8, or 9). Refer to [Policy 1410](#) for related definitions.
