Helpful Tips:

- Enter search criteria to find invoice and click Go.
- Recommended practice is to search by Supplier and Invoice Number (e.g., Supplier Name is DELL MARKETING L P and Invoice Number is XJ1234567).
- If you know the exact value you are looking for, using "is" or "starts with" will return results more quickly than "contains."
- If Invoice Number is not known, look up the Supplier by Supplier Number or Supplier Name and select a Creation Date or Invoice Date parameter (e.g., Supplier Name = DELL MARKETING L P and Creation Date after 30-APR-2013). Dates must be in DD-MON-YYYY format with month being in capital letters (e.g., 15-MAY-2013).
- When searching by Supplier Name, % serves as a wildcard. For example, searching for %OASIS will return both AUDIO & VIDEO LABS INC DBA OASIS CD MANUFACTURING and OASIS MEDICAL INC. Enter Supplier Name in ALL CAPITAL LETTERS.
Scenario: Department is looking for the status of an invoice that was to be paid to Star Distributors. On the copy of the invoice they have for their records, only partial invoice number is showing.
