Learning Objectives

After completing this course, you will be able to:

- Log in to the Systems & Technology Access Request Tool (START)
- Understand the components of the Main Menu and Dashboard within START
- Query for end users and building names/addresses within START
- Effectively navigate through the Main Menu, Dashboard, and request screens
- Add, change, and/or delete telephone services requests using START
- Approve, reject, or cancel telephone services requests made through START (only Telecommunications Approvers)
- Review requests made through START
- Exit START
Introduction

This training guide is designed to provide the end user with specific guidelines regarding the utilization of START (Systems & Technology Access Request Tool) for the purpose of requesting telephone services. This web tool will allow the end user to:

- Make requests for telephone services for Self, Others, or Departments
- Monitor the status of requests made for telephone services
- Provide uniformity to the format of requests for services
- Validate PTAEOs as well as building locations
- Ensure pertinent information is provided when requesting services

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
START Telecom User Manual
2-04

START (Systems & Technology Access Request Tool)

Introduction

START is the new web based tool that end users use for requesting, changing or removing access to Yale’s applications and ITS services. By utilizing START, processing time is reduced as well as the complexity and requirements for these requests. This document has been designed to provide an overview of the tool, specifically the functionality of START as it relates to telephone services requests.

Accessing START

End users may access START in one of two ways. First, they may access START through CAS (Central Authentication System). (Note: This is the preferred method.) Or, second, they may select S.T.A.R.T. from the ITS Administrative Systems web site at www.yale.edu/access. To access START through CAS, select the Start button on the Task bar of your desktop window. Click on Yale Admin Menu.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
In the **Yale Application Links** window, double-click on the **Financials, Procurement and Human Resources** icon to access CAS (Central Authentication Service).

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
Logging on to START

Once the user double-clicks on Financials, Procurement and Human Resources in the Yale Application Links window, a University Authorized User Agreement message box displays. By clicking on the OK button you agree to the terms in the message box. If the user selects Cancel, the user will be linked to the policies located at http://www.yale.edu/policy/admin/.

After clicking OK, CAS (Central Authentication Service) will display as seen below.

To log on/access START, take the following steps:

1. Log on to identify yourself as a user. The user name identifies each user to the system. It is used to establish levels of responsibility for entering, viewing and modifying data.

2. Complete the NetID field with your NetID.

3. Enter your Password. Central Campus users should use their email password to log on. Medical School users should use their NT or “Good Morning” password.
4. Click the Login button. The Welcome Menu window will display as shown below. Your self-service and core applications may vary slightly compared to the list seen below.

5. Within the Welcome Menu Navigate list, select START Access for Others. This action will open a parallel listing from which the user chooses to either request access or services, review requests made, review access for others, or run either the Security & Access Reports in Brio or the User Profile by Organization.
If the user is experiencing a problem when logging on, select Help from the CAS log on screen.

It will link the user to CAS Help as seen below.

The table below offers troubleshooting suggestions that may be selected from CAS Help.

<table>
<thead>
<tr>
<th>If...</th>
<th>Then...</th>
</tr>
</thead>
<tbody>
<tr>
<td>you are not sure of your NetID</td>
<td>Go to the <strong>Find NetID</strong> link and enter your SSN number and last name. A page displays your NetID provided you have been set up properly in the Human Resources Oracle database.</td>
</tr>
<tr>
<td>you cannot find your NetID</td>
<td>You probably do not have one. Please call your help desk for assistance:</td>
</tr>
</tbody>
</table>
you have a NetID, but have not created a password

Go to the Activate or Change Your NetID site and use your “pin” to activate your NetID. If you do not have a “pin”, contact your Distributed Support Provider (DSP) or User Accounts at user.accounts@yale.edu or go to User Accounts at 221 Whitney Ave, 1st floor.

you have a NetID, but your password is different from your network domain password (most frequent cause of problem)

Go to the Synchronize Password site and synchronize your network domain password with the password you use for START, Central Campus email, and PPP access.

Welcome Menu

After logging on to START, the Welcome Menu will display. The end user’s Welcome Menu may vary slightly compared to the menu shown below.

START Services for Departments

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
START Services for Departments | Description
---|---
Request Services | This selection allows Business Managers, DSPs, ITS Approvers, and Telecommunications Coordinators to request services for departments; i.e., Central Campus Backup/ADSM/TSM, Central Campus Meeting Maker, Ethernet Connection, Telephone Services.

### Requesting Access/Services for Others or Departments

An end user will either be requesting access, for himself/herself, others, or departments to one of the ITS applications or services that are handled by START. The request may be to add, change or delete responsibilities to the Oracle business applications and/or Telephone Services or, for Central Campus users: AccuShip, e-mail accounts, back up/ADSM/TSM, Meeting Maker, NetID Pins, Remote Access/PPP, Ethernet Connections, or IP Addresses (DSPs only). When Request Access for Others is selected, a List of Values window will display as seen below.

![List of Values](image)

The end user may then query the employee by NetID if known. If the NetID is not known, the end user may select Full Name from the drop down list in the first box, starts with in the second box, and type the employee’s last name in the third box. After the three fields have been completed, select the Find button. When searching by NetID, the employee’s information will display in the field as seen below.

![Employee Information](image)

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
Note: The List of Values window will display an x-marked match case box. When searching for an ORG name or NetID, data should be entered in the appropriate upper or lower case. It is recommended that, when in doubt, enter data in upper case.

When Request Services is selected (department requests), a List of Values window will display as seen below.

The end user may then query the department/organization by Organization Unit Code (Org Number) if known. If the Organization Unit Code is not known, the end user may select Organization Name from the drop down list in the first box, contains in the second box, and type the short org name (ASDODL) in the third box. After the three fields have been completed, select the Find button. When searching by Organization Unit Code, the organization’s information will display as shown below.

By selecting the highlighted NetID or Organization Name, the end user will be brought to the Dashboard where the requests to add, change or delete access and/or services are selected as seen below.
Dashboard

Once a radio button has been selected, the end user should scroll down to the Submit button that is located at the bottom of the Dashboard to continue the process. When requesting Telephone Services, if the Add button is selected, the end user will be linked directly to the Add Telephone Services Menu. If the Change button is selected, the end user will be linked directly to the Change Telephone Services Menu. If the Delete button is selected, the end user will be linked directly to the Delete Telephone Services Menu. The end user would then select the specific telephone service(s) as seen below.

ADD Telephone Services Menu
Please select ALL of the specific Telephone Services that you wish to ADD from the list below and press the Submit button.

- Calling Cards
- Cell Phones
- Faxes
- TANs
- Telephone Sets and Lines
- Ethernet - Central Campus Only
After submitting the request for services, the ADD Request Details screen will display. An example is seen below.

![ADD Request Details Screen](image)

Common user information is entered only once and used for all the requests. Charging instructions for all services are requested at the end of the Details screen to allow the PTAO(s) to be copied, as applicable. After the information has been entered, the end user will click the Next button to continue the request process.
When requesting a cell phone, an order form specific to the phone service being ordered will display.

When requesting **Telephone Sets/Lines**, the **Line Details** screen will display. The end user will complete the details for the phone line and click the **Submit** button when done.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
A **Request Submission Confirmation** page will display. A **Request ID** number will display for the entire request as well individual **Request ID** numbers for each individual request. This allows the end user to track the status of the entire request as well as the status of each individual request. The end user should print the **Request Submission Confirmation** page for future reference.

If another access/services request needs to be made, the end user may click the **Make Another Request** button. Otherwise, the end user may return to the **Main Menu** using the **Main** function button or **Log Out** of the tool.
Approving Access/Services (Telecommunications Approvers Only)

Once Telephone Services requests have been made, an approval process must take place before the request can move into the appropriate Telecom Worklist. Business Managers/Telecommunications Approvers select Approve Access for Others from the Main Menu. From the START Approvers Worklist, the request ID is selected for approval or rejection.
The Details of Request ID will display as seen below. Business Managers/Telecommunications Approvers would then select the Approve, Reject, or Cancel button. All comments entered in the Comments field will be emailed to the preparer/requester.

Review Requests Made

After a telephone services request has been made, the requester may review the status of the request. From the Main Menu, select either Review Requests Made by Me or Review Requests Made - All. If Review Requests Made by Me is chosen, this will link the requester to the Review Requests Made screen as seen below.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
The details of a request may be seen by selecting the Request ID number. The details will be displayed as seen below.

Note: When selecting Review Requests Made – All, a date range must first be selected. This will limit the number of requests that will be displayed.
## Function Buttons/Links within START

<table>
<thead>
<tr>
<th>Button</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Help" /></td>
<td>This button is used to link the user to the online tutorial for <strong>START</strong>.</td>
</tr>
<tr>
<td><img src="image" alt="Log Out" /></td>
<td>This button is used to allow the user to log out of <strong>START</strong>. It is recommended that the user exit <strong>START</strong> by selecting this button otherwise another user could make additional requests under your NetID. The user will be returned to the log on screen for <strong>START</strong>. (Note: an end user will automatically be logged out of <strong>START</strong> 10 hours after logging on).</td>
</tr>
<tr>
<td><img src="image" alt="Main Menu" /></td>
<td>This button is used to allow a user to return to the Main Menu screen in <strong>START</strong>.</td>
</tr>
<tr>
<td><img src="image" alt="Previous" /></td>
<td>This button is used to bring a user to a previous screen in <strong>START</strong>; i.e., the user may return to the <strong>Dashboard</strong> to make additional requests. It is recommended that this button be used rather than the “Back” button on the browser.</td>
</tr>
<tr>
<td><img src="image" alt="Feedback" /></td>
<td>This button may be used to provide feedback on <strong>START</strong>. The button allows the end user to send an email directly to the helpdesk for comments, questions, or suggestions.</td>
</tr>
<tr>
<td><img src="image" alt="Dashboard" /></td>
<td>This button is used to bring a user to the <strong>Dashboard</strong> to submit additional requests; i.e., additional adds/changes/deletes.</td>

</tbody>
</table>
Scenarios

Scenarios 1.1: Calling Cards Add Request
1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the ADD Telephone Services Menu, select Calling Cards and select the Submit button.
5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone, Location and Mailstop will auto-populate.
6. Enter the Monthly Charge PTAEO in the required fields.
7. Enter User Comments/Description of Service, if applicable.
8. Click the Submit button.
9. Print the Request Submission Confirmation page to retain for future reference.
10. If additional Add telephone services requests need to be made for the same end user scroll down, select the appropriate radio button and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 1.2: Calling Cards Change Request
1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Change radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the CHANGE Telephone Services Menu, select Calling Cards and select the Submit button.
5. From the CHANGE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.
6. Enter the Calling Card Number in the field.
7. The Requested Effective Date will default to the current date. To change the Requested Effective Date to a later date, highlight the date and enter a new date in Oracle format; i.e., DD-MMM-YYYY.
8. Select the Yes radio button if changing the PTAEO.
9. Enter the Current PTAEO, and then enter the New PTAEO.
10. If the request is to Reassign Calling Card to a new End User, select the Yes radio button. Select the New End User from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John) and click the Find button. Select the New End User by clicking on the employee’s name. The New End User’s name will auto-populate.
11. Enter User Comments/Description of Service, if applicable.
12. Click the Submit button.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
13. Print the Request Submission Confirmation page to retain for future reference.
14. If additional Change telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 1.3: Calling Cards Delete Request
1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Delete radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the DELETE Telephone Services Menu, select Calling Cards and select the Submit button.
5. From the DELETE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.
6. Type the Calling Card Number in the field.
7. The Requested End Date will default to the current date. To change the Requested End Date to a later date, highlight the date and enter a new date in Oracle format; i.e., DD-MMM-YYYY.
8. Enter the Current PTAEO in the required fields.
9. Enter User Comments/Description of Service, if applicable.
10. Click the Submit button.
11. Print the Request Submission Confirmation page to retain for future reference.
12. If additional Delete telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 2.1: Cell Phones Add Request
1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the ADD Telephone Services Menu, select Cell Phones and select the Submit button.
5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
6. Enter the Shipping Address/Street Address (Address to which the Cell Phone and Accessories will be shipped). (NOTE: PO BOXES ARE NOT ALLOWED). Enter floor and room numbers after the Street Address, if appropriate.

7. Select the Cell Phone Service Provider.

8. Enter the Installation, Monthly, and Toll Charge PTAEO. (Note: If the installation fee, monthly fee, and toll charge fee is to be charged to the same PTAEO, use the Copy button).

9. Enter User Comments, if applicable.

10. Select the Next button.

11. Choose the appropriate Calling Plan from the drop down list.

12. Choose the type of cell phone from the drop down list.

13. Select any Accessories, if applicable.

14. Click the Submit button.

15. Print the Request Submission Confirmation page to retain for future reference.

16. If additional Add telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 2.2: Cell Phones Change Request

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.

2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.

3. From the START Dashboard, select the Change radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the CHANGE Telephone Services Menu, select Cell Phones and select the Submit button.

5. From the CHANGE Request Details screen enter the Cell Phone Number.

6. Select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

7. Select the Cell Phone Provider.

8. Select the Change Type; i.e., Monthly Charge PTAEO/User Name/Calling Plan Changes or Upgrade Cell Phone Model/Order new accessories.

9. Click the Next button.

10. If Monthly Charge PTAEO/User Name/Calling Plan Changes is selected, complete the CHANGE Request Details screen.

11. The Requested Effective Date will default to the current date. To change the Requested Effective Date to a later date, highlight the date and enter a new date in Oracle format; i.e., DD-MMM-YYYY.

12. Select the Yes radio button if the request is to change the calling plan. (The button defaults to No). Select the Current Calling Plan from the drop down list, and then select the New Calling Plan from the drop down list.

13. To Change PTAEO, select the Yes radio button (The button defaults to No).

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
14. Enter the Current PTAEO in the required fields, and then enter the New PTAEO in the required fields.
15. To Change Toll PTAEO, select the Yes radio button (The button defaults to No).
16. Enter the New Toll PTAEO in the required fields.
17. To Change User Name, select the Yes radio button (The button defaults to No).
18. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
19. Enter User Comments, if applicable.
20. Click the Submit button.
22. If Upgrade Cell Phone Model/Order new accessories is selected, complete the CHANGE Request Details screen.
23. Select the Yes radio button if the request is to Change Cell Phone Model (The button defaults to No). Choose the New Cell Phone Model from the drop down list.
24. Select the Yes radio button to Request New Accessories, if applicable. (The button defaults to No).
25. Choose the Cell Phone Accessories, as applicable.
26. Enter the Charging PTAEO in the required fields.
27. Enter the Shipping Address/Street Address (Address to which the Cell Phone and Accessories will be shipped). (NOTE: PO BOXES ARE NOT ALLOWED). Enter floor and room numbers after the Street Address, if appropriate.
28. Enter User Comments, if applicable.
29. Click the Submit button.
30. Print the Request Submission Confirmation page to retain for future reference.
31. If additional Change telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

### Scenario 2.3: Cell Phones Delete Request

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Delete radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the DELETE Telephone Services Menu, select Cell Phones and select the Submit button.
5. The Requested End Date will default to the current date. To change the Requested End Date to a later date, highlight the date and enter a new date in Oracle format; i.e., DD-MMM-YYYY.
6. Select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.
7. Type the Cell Phone Number in the field.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
8. Select the **Cell Phone Service Provider**.

9. Enter the **Monthly Charge PTAEO** in the required fields.

10. Enter **User Comments**, if applicable.

11. Click the **Submit** button.

12. Print the **Request Submission Confirmation** page to retain for future reference.

13. If additional **Delete** telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the **Copy Request** button. If another access/services request needs to be made for the employee, click the **Request Another Service** button. Otherwise, return to the **Main Menu** using the **Main** function button to request a service for another end user or **Log Out** of the tool.

### Scenario 3.1: Pagers Add Request

1. From the **Main Menu**, select **Access or Services for Others** under the **START Access for Others** option.

2. Select the end user from the List of Values (LOV). Use either the search method “**NetID**” “**Is**” (js85) or “**Full Name**” “**Is**” (Smith, Mr John). **Note:** The first option is the preferred method for locating an end user.

3. From the **START** Dashboard, select the **Add** radio button for **Telephone Services**, scroll to the bottom and select the **Submit** button.

4. From the **ADD Telephone Services** Menu, select **Pagers** and select the **Submit** button.

5. From the **ADD Request Details** screen, select the **Business Manager/ Approver** from the drop down list. The **Business Manager Phone** will auto-populate.

6. Select the **Pager Model** from the drop down list.

7. Select the **Pager Number**.

8. Select **Pager Voice Mail**, if applicable.

9. Choose the **Pager Pick-up Location**.

10. Enter the **Monthly Charge PTAEO** in the required fields.

11. Enter **User Comments**, if applicable.

12. Click the **Submit** button.

13. Print the **Request Submission Confirmation** page to retain for future reference.

14. If additional **Add** telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the **Copy Request** button. If another access/services request needs to be made for the employee, click the **Request Another Service** button. Otherwise, return to the **Main Menu** using the **Main** function button to request a service for another end user or **Log Out** of the tool.

### Scenario 3.2: Pagers Change Request

1. From the **Main Menu**, select **Access or Services for Others** under the **START Access for Others** option.

2. Select the end user from the List of Values (LOV). Use either the search method “**NetID**” “**Is**” (js85) or “**Full Name**” “**Is**” (Smith, Mr John). **Note:** The first option is the preferred method for locating an end user.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
3. From the START Dashboard, select the Change radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the CHANGE Telephone Services Menu, select Pagers and select the Submit button.

5. From the CHANGE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Enter the Pager Phone Number to be changed.

7. The Requested Effective Date will default to the current date. To change the Requested Effective Date to a later date, highlight the date and enter a new date in Oracle format; i.e., DD-MMM-YYYY.

8. To Change Pager Model, select the Yes radio button. (The button defaults to No).

9. Select the Current Pager Model from the drop down list and then select the New Pager Model from the drop down list.

10. To Change Pager Number Type, select the Yes radio button. (The button defaults to No).

11. Select the Current Pager Number Type from the drop down list, and then select the New Pager Number Type from the drop down list.

12. Enter the Monthly Charge PTAEO in the required fields.

13. Select the Pager Pick up Location.

14. To Change PTAEO, select the Yes radio button. (The button defaults to No).

15. Enter the Current PTAEO and then the New PTAEO in the required fields.

16. Enter User Comments, if applicable.

17. Click the Submit button.

18. Print the Request Submission Confirmation page to retain for future reference.

19. If additional Change telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 3.3: Pagers Delete Request

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.

2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.

3. From the START Dashboard, select the Delete radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the DELETE Telephone Services Menu, select Pagers and select the Submit button.

5. Select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Enter the Pager Phone Number being deleted.

7. The Date to End Service defaults to the current date. To change the Date to End Service to a later date, highlight the date and enter a new date in Oracle format; i.e., DD-MMM-YYYY.

8. Select the Pager Drop Off Location. (NOTE: THE PAGER MUST BE RETURNED TO ONE OF THE LOCATIONS. BILLING WILL NOT STOP UNTIL THE PAGER IS RETURNED).

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
9. Enter the Monthly Charge PTAEO in the required fields.
10. Enter User Comments, if applicable.
11. Click the Submit button.
12. Print the Request Submission Confirmation page to retain for future reference.
13. If additional Delete telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 4.1: TAN (Toll Authorization Number) Add Request

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the ADD Telephone Services Menu, select TANs and select the Submit button.
5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone, Location, and Mailstop will auto-populate.
6. Enter the Monthly Charge PTAEO in the required fields.
7. Enter User Comments/Description of Service, if applicable.
8. Click the Submit button.
9. Print the Request Submission Confirmation page to retain for future reference.
10. If additional Add telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 4.2: TAN (Toll Authorization Number) Change Request

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Change radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the CHANGE Telephone Services Menu, select TANs and select the Submit button.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
5. From the CHANGE Request Details screen, select the Business Manager/ Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Enter the TAN number in the required field.

7. The Requested Effective Date will default to the current date. To change the Requested Effective Date to a later date, highlight the date and enter a new date in Oracle format; i.e., DD-MMM-YYYY.

8. To Change PTAEO, select the Yes radio button. (The button defaults to No).

9. Enter the Current PTAEO and then the New PTAEO in the required fields.

10. If the request is to Reassign TAN to a new End User, select the Yes radio button. Select the New End User from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John) and click the Find button. Select the New End User by clicking on the employee’s name. The New End User’s name will auto-populate.

11. Enter User Comments/Description of Service, if applicable.

12. Click the Submit button.

13. Print the Request Submission Confirmation page to retain for future reference.

14. If additional Change telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 4.3: TAN (Toll Authorization Number) Delete Request

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.

2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.

3. From the START Dashboard, select the Delete radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the DELETE Telephone Services Menu, select TANs and select the Submit button.

5. From the DELETE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Enter the TAN in the required field.

7. The Requested End Date will default to the current date. To change the Requested End Date to a later date, highlight the date and enter a new date in Oracle format; i.e., DD-MMM-YYYY.

8. Enter the Current PTAEO in the required fields.

9. Enter User Comments/Description of Service, if applicable.

10. Click the Submit button.

11. Print the Request Submission Confirmation page to retain for future reference.

12. If additional Delete telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.
Scenario 5.1: Telephone Services Add Request

Single Line Details:

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the ADD Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.
5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.
6. Type the Contact Name and Contact Phone (may be either the requester or the end user).
7. The Requested Due Date field will default to 10 business days from the date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY. (NOTE: IF AN EARLIER INSTALLATION DATE IS NEEDED, CONTACT TONY FERRAILOLO AT 432-2088)
8. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.
9. Type the Floor (01, 02, 03, B) and Room Number, as applicable.
10. Select the Telephone Line Type – Single Line.
11. Enter the Installation, Monthly, and Miscellaneous Toll Charge PTAE0. (Note: If the installation, monthly, and miscellaneous toll charge fees are to be charged to the same PTAE0, use the Copy button).
12. Enter User Comments/Installation Instructions, if applicable.
13. Click the Submit button.
14. Complete the Single Line Details screen. Some of the questions default to No. If Yes is selected for any of the questions (Is there a jack currently available?; Do you want voice mail for this line?; Provide a Dial Zero phone number?; Do you want Call Pick-up for this line?; Should this line “hunt” when busy to voice mail [432-8000]?; Should this line “hunt” when busy to a number other than voice mail?; If all lines are busy, should call “hunt” to voice mail?; Should calls forward no answer to voice mail [432-8000]?; Should calls forward no answer to a number other than voice mail?; type the required information. (Note: if requesting Call Pick-up or “hunt” when busy, type one phone number per line in the box provided).
15. Click the Submit button.
16. Print the Request Submission Confirmation to retain for future reference.
17. If additional Add telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
Note: If an Ethernet Connection is required, select the Add Ethernet Connection button on the Request Submission Confirmation page. This will link the end user to the Add Request Details screen for Ethernet Connections. Complete the appropriate fields and submit the request. Print the Request Submission Confirmation page to retain for future reference.

Multi Line Details:
1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the ADD Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.
5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.
6. Type the Contact Name and Contact Phone (may be either the requester or the end user).
7. The Requested Due Date field will default to 10 business days from the date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY. (NOTE: IF AN EARLIER INSTALLATION DATE IS NEEDED, CONTACT TONY FERRAIIOLO AT 432-2088)
8. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.
9. Type the Floor (01, 02, 03, B) and Room Number, as applicable.
10. Select the Telephone Line Type – Multi Line (3903 set or 3904 set).
11. Enter the Installation, Monthly, and Miscellaneous Toll Charge PTAEO. (Note: If the installation, monthly, and miscellaneous toll charge fees are to be charged to the same PTAEO, use the Copy button).
12. Enter User Comments/Installation Instructions, if applicable.
13. Click the Submit button.
14. Complete the Multi Line Details screen. Some of the questions default to No. If Yes is selected for any of the questions (Is there a jack currently available?; Do you want Voicemail for this line?; Provide a Dial Zero phone number?; Do you want Call Pick-up for this line?; Do you want additional lines for this set?; Are there existing numbers that you want added to this set?; Do you want any NEW additional numbers?; Should the main line “hunt” when busy to voice mail [432-8000]?: Should the main line “hunt” when busy to a number other than voice mail?: Should calls forward no answer to voice mail?: Should calls forward no answer to a number other than voice mail?; type the required information. (Note: if requesting Call Pick-up, want additional lines that exist added to the set, or numbers to “hunt” when busy, type one phone number per line in the box provided).
15. Click the Submit button.
16. Print the Request Submission Confirmation to retain for future reference.
17. If additional Add telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise,
return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Note: If an Ethernet Connection is required, select the Add Ethernet Connection button on the Request Submission Confirmation page. This will link the end user to the Add Request Details screen for Ethernet Connections. Complete the appropriate fields and submit the request. Print the Request Submission Confirmation page to retain for future reference.

Fax/Modem Line Details:
1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the ADD Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.
5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

12. Enter **User Comments/Installation Instructions** (provide additional information such as residential address, when applicable).
13. Click the **Submit** button.
14. Print the **Request Submission Confirmation** to retain for future reference.
15. If additional **Add** telephone services requests need to be made for the same end user, scroll down, select the appropriate radio button, and click the **Copy Request** button. If another access/services request needs to be made for the employee, click the **Request Another Service** button. Otherwise, return to the **Main Menu** using the **Main** function button to request a service for another end user or **Log Out** of the tool.

**Note:** If an Ethernet Connection is required, select the **Add Ethernet Connection** button on the Request Submission Confirmation page. This will link the end user to the Add Request Details screen for Ethernet Connections. Complete the appropriate fields and submit the request. Print the Request Submission Confirmation page to retain for future reference.
Scenario 5.2: Telephone Services Change Request

Phone Set Type Changes:

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Change radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the CHANGE Telephone Services Menu, select Telephone Services (telephone sets, lines and voicemail) and select the Submit button.
5. From the CHANGE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.
6. Type the Contact Name and Contact Phone (may be either the requester or the end user).
7. Type the Telephone Number to be Changed in the field.
8. The Requested Effective Date field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY. (NOTE: IF AN EARLIER INSTALLATION DATE IS NEEDED, CONTACT TONY FERRAILOLO AT 432-2088)
9. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.
10. Type the Floor (01, 02, 03, B) and Room Number, as applicable.
11. Enter the Installation Charge PTAEO (To be charged for changing service).
12. Select the Change Type (Phone Set Type Changes).
13. Enter User Comments/Installation Instructions, if applicable.
14. Click the Submit button.
15. Complete the Phone Set Type Changes screen. Choose the Current Set Type; next select the New Set Type. Some of the questions default to No. If Yes is selected for any of the questions (Should this line “hunt” when busy to voice mail [432-8000]?; Should this line “hunt” when busy to a number other than voice mail?; If all lines are busy, should call “hunt” to voice mail?; Should calls forward no answer to voice mail [432-8000]?; Should calls forward no answer to a number other than voice mail?), type the required information.
16. Enter User Comments, if applicable.
17. Click the Submit button.
18. Print the Request Submission Confirmation to retain for future reference.
19. If additional Change telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise,
return to the **Main Menu** using the **Main** function button to request a service for another end user or **Log Out** of the tool.

### Phone Number/Line Appearance Changes:

1. From the **Main Menu**, select **Access or Services for Others** under the **START Access for Others** option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). **Note:** The first option is the preferred method for locating an end user.
3. From the **START Dashboard**, select the **Change** radio button for **Telephone Services**, scroll to the bottom and select the **Submit** button.
4. From the **CHANGE Telephone Services** Menu, select **Telephone Services** (telephone sets, lines and voicemail) and select the **Submit** button.
5. From the **CHANGE Request Details** screen, select the **Business Manager/Approver** from the drop down list. The **Business Manager Phone** will auto-populate.
6. Type the **Contact Name** and **Contact Phone** (may be either the requester or the end user).
7. Enter the **Telephone Number to be Changed** in the field.
8. The **Requested Effective Date** field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY. **(NOTE: IF AN EARLIER INSTALLATION DATE IS NEEDED, CONTACT TONY FERRAILOLO AT 432-2088)**
9. Click the List of Values button (LOV) to select the **Building Name/Street Address**. To locate the appropriate building/address, use the format “**Street Address**” “*Contains*” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the **Find** button. Select the address.
10. Type the **Floor** (01, 02, 03, B) and **Room Number**, as applicable.
11. Enter the **Installation Charge PTAEO (To be charged for changing service)**.
12. Select the **Change Type** (Phone Number/Line Appearance Changes).
13. Enter **User Comments/Installation Instructions**, if applicable.
14. Click the **Submit** button.
15. Complete the **Phone Number/Line Appearance Changes** screen. All questions default to No. If Yes is selected for any of the questions (Change User’s telephone number?; Change Existing telephone number on multi-line set?; Do you want to add numbers to this set?; Are there existing numbers that you want added to this set?; Do you want any NEW additional numbers?; Do you want to remove numbers from this set?), type the required information.
16. Enter **User Comments**, if applicable.
17. Click the **Submit** button.
18. Print the **Request Submission Confirmation** to retain for future reference.
19. If additional **Change** telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the **Copy Request** button. If another access/services request needs to be made for the employee, click the **Request Another Service** button. Otherwise, return to the **Main Menu** using the **Main** function button to request a service for another end user or **Log Out** of the tool.

12. Select the Change Type (Call Forwarding Changes [hunt when busy, forward no answer]).

13. Enter User Comments/Installation Instructions, if applicable.

14. Click the Submit button.

15. Complete the Call Forwarding Changes screen. Some of the questions default to No. If Yes is selected for any of the questions (Should this line “hunt” when busy to voice mail [432-8000]?, Should this line “hunt” when busy to a number other than voice mail?; If all lines are busy, should call “hunt” to voice mail?; Should calls forward no answer to voice mail [432-8000]?, Should calls forward no answer to a number other than voice mail?; Remove “hunt” when busy?; Remove forward when no answer?), type the required information..

16. Enter User Comments, if applicable.

17. Click the Submit button.

18. Print the Request Submission Confirmation to retain for future reference.

19. If additional Change telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

PTAEO/User Name Changes:

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.

2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.

3. From the START Dashboard, select the Change radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the CHANGE Telephone Services Menu, select Telephone Services (telephone sets, lines and voicemail) and select the Submit button.

5. From the CHANGE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Type the Contact Name and Contact Phone (may be either the requester or the end user).

7. Enter the Telephone Number to be Changed in the field.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
8. The **Requested Effective Date** field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY. *(NOTE: IF AN EARLIER INSTALLATION DATE IS NEEDED, CONTACT TONY FERRAIOLU AT 432-2088)*

9. Click the List of Values button (LOV) to select the **Building Name/Street Address**. To locate the appropriate building/address, use the format “*Street Address*” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the **Find** button. Select the address.

10. Type the **Floor** (01, 02, 03, B) and **Room Number**, as applicable.

11. Enter the **Installation Charge PTAEO**.

12. Select the **Change Type** (PTAEO/User Name Changes).

13. Enter **User Comments/Installation Instructions**, if applicable.

14. Click the **Submit** button.

15. Complete the **PTAEO/User Name Changes** screen. All questions default to No. If Yes is selected for any of the questions (New PTAEO for monthly charging?; New PTAEO for miscellaneous toll charging?; Change User Name?), type the required information. Enter the segments of the PTAEO as indicated. To change the **User Name**, select the user from the List of Values (LOV). Use either the search method “*NetID*” “Is” (js85) or “*Full Name*” “Is” (Smith, Mr John). *(Note: The first option is the preferred method for locating an end user.)*

*(NOTE: PLEASE USE THE LIBERTY RESPONSE SPREADSHEET FOR “MASS” UPDATES AT http://risimgw1.its.yale.edu.)*

16. Enter **User Comments**, if applicable.

17. Click the **Submit** button.

18. Print the **Request Submission Confirmation** to retain for future reference.

19. If additional **Change** telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the **Copy Request** button. If another access/services request needs to be made for the employee, click the **Request Another Service** button. Otherwise, return to the **Main Menu** using the **Main** function button to request a service for another end user or **Log out** of the tool.

**Phone Set Moves:**

1. From the **Main Menu**, select **Access or Services for Others** under the **START Access for Others** option.

2. Select the end user from the List of Values (LOV). Use either the search method “*NetID*” “Is” (js85) or “*Full Name*” “Is” (Smith, Mr John). *(Note: The first option is the preferred method for locating an end user.)*

3. From the **START Dashboard**, select the **Change** radio button for **Telephone Services**, scroll to the bottom and select the **Submit** button.

4. From the **CHANGE Telephone Services** Menu, select **Telephone Services** (telephone sets, lines and voicemail) and select the **Submit** button.

5. From the **CHANGE Request Details** screen, select the **Business Manager/Approver** from the drop down list. The **Business Manager Phone** will auto-populate.

6. Type the **Contact Name** and **Contact Phone** (may be either the requester or the end user).

7. Enter the **Telephone Number to be Changed** in the field.

8. The **Requested Effective Date** field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY.

9. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.

10. Type the Floor (01, 02, 03, B) and Room Number, as applicable.

11. Enter the Installation Charge PTAEO (To be charged for changing service).

12. Select the Change Type (Phone Set Moves).

13. Enter User Comments/Installation Instructions, if applicable.

14. Click the Submit button.

15. Complete the Move Phone Set to a New Location screen. If the phone set is being moved to a new location or there is a change at the same location, select the location using the List of Values button (LOV). To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address. There is one question that defaults to No. If Yes is selected for the question (Is there a jack currently available?), type the required information.

16. Enter User Comments, if applicable.

17. Click the Submit button.

18. Print the Request Submission Confirmation to retain for future reference.

19. If additional Change telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 5.3: Telephone Services Delete Requests

Single Line Details:

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.

2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.

3. From the START Dashboard, select the Delete radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the DELETE Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.

5. From the DELETE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Type the Contact Name and Contact Phone (may be either the requester or the end user).

7. Enter the Telephone Number to be Deleted in the field.

8. The Requested End Date field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
9. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.

10. Type the Floor (01, 02, 03, B) and Room Number, as applicable.

11. Select the Telephone Line Type – Single Line.

12. Enter the Monthly Charge PTAEO.

13. Enter User Comments/Installation Instructions, if applicable.

14. Click the Submit button.

15. Print the Request Submission Confirmation to retain for future reference.

16. If additional Delete telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Multi Line Details:

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.

2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.

3. From the START Dashboard, select the Delete radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the DELETE Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.

5. From the DELETE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Type the Contact Name and Contact Phone (may be either the requester or the end user).

7. Enter the Telephone Number to be Deleted in the field.

8. The Requested End Date field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY. (NOTE: IF AN EARLIER DELETION DATE IS NEEDED, CONTACT TONY FERRAIIOLO AT 432-2088)

9. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.

10. Type the Floor (01, 02, 03, B) and Room Number, as applicable.

11. Select the Telephone Line Type – Multi Line (3903 set or 3904 set).

12. Enter the Monthly Charge PTAEO.

13. Enter User Comments/Installation Instructions, if applicable.
14. Click the Submit button.

15. Print the Request Submission Confirmation to retain for future reference.

16. If additional Delete telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

**Fax/Modem Line Details:**

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.

2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.

3. From the START Dashboard, select the Delete radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the DELETE Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.

5. From the DELETE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Type the Contact Name and Contact Phone (may be either the requester or the end user).

7. Enter the Telephone Number to be Deleted in the field.

8. The Requested End Date field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY. (NOTE: IF AN EARLIER DELETION DATE IS NEEDED, CONTACT TONY FERRAIIOLO AT 432-2088)

9. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.

10. Type the Floor (01, 02, 03, B) and Room Number, as applicable.

11. Select the Telephone Line Type – Fax Line-Modem.

12. Enter the Monthly Charge PTAEO.

13. Enter User Comments/Installation Instructions, if applicable.

14. Click the Submit button.

15. Print the Request Submission Confirmation to retain for future reference.

16. If additional Delete telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.
Other (DSL Service, Mechanical Circuit, Emergency Phone, Area of Refuge Phone, Fiber Circuit or Residential Line, Video Conferencing, or Cable TV):

1. From the Main Menu, select Access or Services for Others under the START Access for Others option.
2. Select the end user from the List of Values (LOV). Use either the search method “NetID” “Is” (js85) or “Full Name” “Is” (Smith, Mr John). Note: The first option is the preferred method for locating an end user.
3. From the START Dashboard, select the Delete radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the DELETE Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.
5. From the DELETE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.
6. Type the Contact Name and Contact Phone (may be either the requester or the end user).
7. Enter the Telephone Number to be Deleted in the field.
8. The Requested End Date field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date in Oracle format; i.e., DD-MMM-YYYY. (NOTE: IF AN EARLIER DELETION DATE IS NEEDED, CONTACT TONY FERRAILOLO AT 432-2088)
9. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.
10. Type the Floor (01, 02, 03, B) and Room Number, as applicable.
11. Select the Telephone Line Type – Other. Type the specific request in the box; i.e., DSL Service, Mechanical Circuit, Emergency Phone, Area of Refuge Phone, or Fiber Circuit or Residential Line, Video Conferencing, Cable TV).
12. Enter the Monthly Charge PTAEO.
13. Enter User Comments/Installation Instructions (provide additional information such as residential address, if applicable).
14. Click the Submit button.
15. Print the Request Submission Confirmation to retain for future reference.
16. If additional Delete telephone services requests need to be made for the same end user scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made for the employee, click the Request Another Service button. Otherwise, return to the Main Menu using the Main function button to request a service for another end user or Log Out of the tool.

Scenario 6.1: Telephone Services Add Request for a Department

Calling Cards:

1. From the Main Menu, select Request Services under the START Services for Departments option.
2. Select the Department/Organization from the List of Values (LOV). Use either the search method “Organization Name” “Contains” and type the short organization name (FINADM, HRSODL).

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
FESADM) or use “Organization Unit Code” “Is” and type the organization number (974501, 787001). Note: The second option is the preferred method for locating an organization.

3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the ADD Telephone Services menu, select Calling Cards and select the Submit button.

5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone, Location and Mailstop will auto-populate.

5. From the **ADD Request Details** screen, select the **Business Manager/Approver** from the drop down list. The **Business Manager Phone, Location** and Mailstop will auto-populate.
6. Type the Project, Task, and Award segments of the **Monthly Charge PTAEO** in the required fields (the Organization segment will auto-populate).
7. Enter **User Comments/Description of Service**, if applicable.
8. Click the Submit button.
9. Print the **Request Submission Confirmation** page to retain for future reference.

The official version of this information will only be maintained in an on-line web format. Any and all printed copies of this material are dated as of the print date. Please make certain to review the material on-line prior to placing reliance on a dated printed version.
10. If additional Add telephone services requests need to be made for the same department/organization, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made, click the Request Another Service button. Otherwise, return to the Main Menu using the Main Menu function button to request a service for another department/organization or Log Out of the tool.

Telephone Services (telephone sets and lines):
Single Line Details:

1. From the Main Menu, select Request Services under the START Services for Departments option.

2. Select the Department/Organization from the List of Values (LOV). Use either the search method “Organization Name” “Contains” and type the short organization name (FINADM, HRSOLD, FESADM) or use “Organization Unit Code” “Is” and type the organization number (974501). Note: The second option is the preferred method for locating an organization.

3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.

4. From the ADD Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.

5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Type the Contact Name and Contact Phone (may be either the requester or the end user).

7. The Requested Due Date field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date. (NOTE: IF AN EARLIER INSTALLATION DATE IS NEEDED, CONTACT TONY FERRAIOLO AT 432-2088)

8. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.

9. Type the Floor (01, 02, 03, B) and Room Number, if applicable.

10. Select the Telephone Line Type – Single Line.

11. Enter the Installation, Monthly, and Miscellaneous Toll Charge PTAEO. (Note: If the installation, monthly, and miscellaneous toll charge fees are to be charged to the same PTAEO, use the Copy button).

12. Enter User Comments/Installation Instructions, if applicable.

13. Click the Submit button.

14. Complete the Single Line Details screen. Some of the questions default to No. If Yes is selected for any of the questions (Is there a jack currently available?; Do you want Voicemail for this line?; Provide a Dial Zero phone number?; Do you want Call Pick-up for this line?; Should this line "hunt" when busy to voice mail (432-8000)?; Should this line "hunt" when busy to a number other than voice mail? If all lines are busy should call "hunt" to voicemail? Should calls forward no answer to voice mail (432-8000)? Should calls forward no answer to a number other than voice mail?) , type the required information. (Note: if requesting Call Pick-up or “hunt” when busy, type one phone number per line in the box provided).

15. Click the Submit button.

16. Print the Request Submission Confirmation to retain for future reference.

17. If additional Add telephone services requests need to be made for the same department/organization, scroll down, select the appropriate radio button, and click the Copy button.
Request button. If another access/services request needs to be made, click the Request Another Service button. Otherwise, return to the Main Menu using the Main Menu function button to request a service for another department/organization or Log Out of the tool.

Note: If an Ethernet Connection is required, select the Add Ethernet Connection button on the Request Submission Confirmation page. This will link the end user to the Add Request Details screen for Ethernet Connections. Complete the appropriate fields and submit the request. Print the Request Submission Confirmation page to retain for future reference.

Multi Line Details:
1. From the Main Menu, select Request Services under the START Services for Departments option.
2. Select the Department/Organization from the List of Values (LOV). Use either the search method “Organization Name” “Contains” and type the short organization name (FINADM, HRSOLD, FESADM) or use “Organization Unit Code” “Is” and type the organization number (974501).
Note: The second option is the preferred method for locating an organization.
3. From the START Dashboard, select the Add radio button for Telephone Services, scroll to the bottom and select the Submit button.
4. From the ADD Telephone Services Menu, select Telephone Services (telephone sets and lines) and select the Submit button.
5. From the ADD Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.
6. Type the Contact Name and Contact Phone (may be either the requester or the end user).
7. The Requested Due Date field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date. NOTE: IF AN EARLIER INSTALLATION DATE IS NEEDED, CONTACT TONY FERRAILOLO AT 432-2088
8. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.
9. Type the Floor (01, 02, 03, B) and Room Number, if applicable.
10. Select the Telephone Line Type – Multi Line (3903 set or 3904 set).
11. Enter the Installation, Monthly, and Miscellaneous Toll Charge PTAEO. (Note: If the installation, monthly, and miscellaneous toll charge fees are to be charged to the same PTAEO, use the Copy button).
12. Enter User Comments/Installation Instructions, if applicable.
13. Click the Submit button.
14. Complete the Multi Line Details screen. Some of the questions default to No. If Yes is selected for any of the questions (Is there a jack currently available?; Do you want Voicemail for this line?; Provide a Dial Zero phone number?; Do you want Call Pick-up for this line?; Do you want additional lines for this set?; Are there existing numbers that you want added to this set?; Do you want any NEW additional numbers?; Should the main line “hunt” when busy to voicemail [432-8000]?; Should the main line “hunt” when busy to a number other than voicemail?; Should calls forward no answer to voicemail [432-8000]?; Should calls forward no answer to a number other than voicemail?), type the required information. (Note: if requesting Call Pick-up, want additional lines that exist, or numbers to “hunt” when busy, type one phone number per line in the box provided).
15. Click the Submit button.
16. Print the Request Submission Confirmation to retain for future reference.

17. If additional Add telephone services requests need to be made for the same department/organization, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made, click the Request Another Service button. Otherwise, return to the Main Menu using the Main Menu function button to request a service for another department/organization or Log Out of the tool.

2. Select the Department/Organization from the List of Values (LOV). Use either the search method “Organization Name” “Contains” and type the short organization name (FINADM, HRSODL, FESADM) or use “Organization Unit Code” “Is” and type the organization number (974501, 787001). **Note:** The second option is the preferred method for locating an organization.
3. From the **START Dashboard**, select the **Delete** radio button for **Telephone Services**, scroll to the bottom and select the **Submit** button.
4. From the **DELETE Telephone Services** Menu, select **Telephone Services** (telephone sets and lines) and select the **Submit** button.
5. From the DELETE Request Details screen, select the Business Manager/Approver from the drop down list. The Business Manager Phone will auto-populate.

6. Type the Contact Name and Contact Phone (may be either the requester or the end user).

7. Enter the Telephone number to be deleted in the field.

8. The Requested End Date field will default to 10 business days from date of request. The date may be changed to a later date by typing over the default date. (NOTE: IF AN EARLIER DELETION DATE IS NEEDED, CONTACT TONY FERRAILOLO AT 432-2088)

9. Click the List of Values button (LOV) to select the Building Name/Street Address. To locate the appropriate building/address, use the format “Street Address” “Contains” and type either the number or name of the street (205, 155, 2 or Whitney, Prospect, Hillhouse) and click the Find button. Select the address.

10. Type the Floor (01, 02, 03, B) and Room Number, if applicable.

11. Select the Telephone Line Type – Multi Line.

12. Enter the Monthly Charge PTAEO.

13. Enter User Comments/Installation Instructions, if applicable.

14. Click the Submit button.

15. Print the Request Submission Confirmation to retain for future reference.

16. If additional Delete telephone services requests need to be made for the same department/organization, scroll down, select the appropriate radio button, and click the Copy Request button. If another access/services request needs to be made, click the Request Another Service button. Otherwise, return to the Main Menu using the Main Menu function button to request a service for another department/organization or Log Out of the tool.

Fax/Modem Line Details:

1. From the Main Menu, select Request Services under the START Services for Departments option.
